

Press Release

Grant County, KY Uses 2008 AFG to Purchase OnSite ERT™

Ann Arbor, MI -- April 13, 2009 -- ERT Systems, LLC, a leading provider of automated resource tracking systems for first responders, announced today that Grant County, Kentucky, has selected OnSite ERT as its primary accountability solution for firefighters. Grant County represents about 150 firefighters serving a population of 25,000 across 260 square miles.

Each department will use OnSite ERT to automatically track and locate its firefighters and equipment when deployed at emergency events using wireless ID tags, portable receivers, and the PAR incident command software. Also, as a county-wide deployment, OnSite ERT will provide automatic interoperability between departments at mutual-aid events, streamlining response and improving post-incident reporting and performance analysis.

About ERT Systems, LLC

Based in Ann Arbor, Michigan, ERT Systems LLC offers OnSite ERT™, a portable and rapidly-deployable system for tracking and locating personnel and equipment on-scene at emergency events.

First installed in early 2006 at the Macomb County Community College Firefighter Training Facility, OnSite ERT has earned a number of awards and accolades, including recognition at the Michigan Homeland Security Consortium's SELECT awards.

OnSite ERT is on the DHS Authorized Equipment List and is approved for grant purchase. For more information or to view an on-line demo, see www.OnSiteERT.com.
